Meeting Minutes

The meeting was called to order at 6:32 with eighteen members, and four officers in attendance. No new members or guests were present. See the attached attendance sheet.

The March meeting minutes were approved and no one proposed that they be read.

Treasury Report: In Dave Moore's absence Will Lavery gave the following summary of the treasury.

Income Total: \$ 484.27

Expenses Total: \$ 738.09

Cash on Hand: \$ 368.25

Checking Account: \$ 7,622.63

Total: \$ 7,990.88

The Treasury Report was approved.

Training & Safety Report: Steve Spielbusch mentioned that despite the windy weather that we have some new trainees showing up. Steve also announced that he will be repairing the damaged training Apprentice planes. The Training & Safety report was approved.

Field Maintenance: John Baker announced that the grass cutting has begun. The grass field requires another compression with the roller after some more rain softens up the dirt. John mentioned that they have been finding batteries that are unmarked with the owner's names on them. This is a reminder that all of your equipment that you bring to the field, needs to have your name on them. The Field Maintenance Report was approved.

Old Business

No old business was brought up.

New Business

Will Lavery announced that our club can no longer use the Shawnee Mission Park Lake for our float fly. The park suggested that we look at Kill Creek Park or Lexington Lake. The membership seems to like the Lexington Lake as the replacement. Will stated that the fee is only \$100 to schedule Lexington Lake. September is the month most likely to be when the Float Fly can be scheduled.

New Business cont.

Will Lavery is still pursuing a place for our Swap-N-Shop. The Lenexa location will publish the rental rates on April 21st. A possible new location is at the Foundry Church, 8835 Lackman Rd Lenexa, KS does not provide tables.

The issue of last years oil spill that killed some grass near the entrance was brought up. Will Lavery will ask the park for either money for us to plant the grass or have the park do it.

Model Of the Month

Terry Antoszewski brought an ARF glider kit from Great Planes. It is the model KUNAI. It uses a 3S 1300mAh as the power source.

Nick Eichelberger brought a 3D printed Super Tucano. It took two weeks and two printers to print out all the sections. Nick said it took about 3 hours to glue the sections together. Nick can get 6 minutes of flight from a 4S 4400mAh battery. The plans cost \$40 at <https://www.planeprint.com/super-tucano>.

Nick won the Model of the Month and has the \$10 gift certificate to Hobby Haven.

The meeting was adjourned at 6:54 PM.
