Combat Flying
October 3rd
At the flying field.

SMRCC Meeting
October 8th 6:00 PM
At the flying field.

Pylon Racing
October 10th
At the flying field.

Meeting Minutes

The meeting was called to order by Will Lavery at 6:01 with sixteen members, two guests, and five officers in attendance. Seth & Tyler are the two guests. See the attached attendance sheet.

The August meeting minutes were approved and no one proposed that they be read.

Treasury Report: Dave Moore gave the following summary of the treasury.

Income Total: \$156.29

Expenses Total: \$1,226.93

Cash on Hand: \$122.00

Checking Account: \$9,957.39

Total: \$10,079.39

The Treasury Report was approved.

Training & Safety Report: Steve Spielbusch reported that despite the high temperatures, training nights continue to be well attended. It was brought up by the attending members that we need to be louder when calling out takeoffs, landings and on the field. This is especially true of newer members that seem to be shy about using their loud voice.

The Training & Safety report was approved.

Field Maintenance: John Baker reported that grass cutting continues as the grass is still growing with all the rain. He also mentioned that we still need more volunteers to help cut and trim the grass.

The Field Maintenance Report was approved.

Old Business

No old business was brought up.

New Business

Lunch will be served on Saturday the 12th with the hot dogs and buns supplied by Marv Allen. Bring sides, snacks, and soft drinks.

Steve Spielbusch asks that pylon racing be attempted this Saturday the 12th. We have gotten away from that lately. Bring those pylon racing planes.

New Business continued

John Baker announced that he will be ordering sweatshirts for this fall, so get your orders in to John by the end of September. He is only going to order them one time, so don't hesitate.

Will Lavery mentioned that he has been talking to the RC Barnstormers club about them coming to our field on some Saturday and fly their helicopters and planes. Will also mentioned that we might host a joint float fly with the RC Barnstormers in the future (June or Sept 2027) at the lake in Paola, Kansas. You will have to bring your own charging equipment as there is no electricity at the lake.

Will also reminded us that our Swap-N-Shop is scheduled for December 5th, 2026 at the Lenexa Old Town Activity Center. Same setup as last year. Plan to help out again.

Model of the Month

Alex Rillos presented a build from outerzone.co.uk plans - Hooker. Converted to electric power using a Turnigy SK3 4240-740 motor. The ESC is a Turnigy Plush 60 Amp. Powered by a 5000mAh 4S Battery.

Tyler Strivanek (Guest and future member) presented a 3D printed YAK-55. It was printed on a Creality printer and took 130 hours to print.

Nick Eichelberger presented with a 3D printed BF-109 in a Swiss livery. It took 100 hours to print.

Alex Rillos and Tyler were awarded co-models of the month.

See the pictures below.....

The meeting was adjourned at 6:38 PM.

Alex Rillos with the Hooker

Tyler Strivanek with the YAK-55

Nick with the BF-109
